PORTAGE AND CARLTON

This Theatre is Heated By "MICHEL"

THE 14,000 HEAT UNIT CANADIAN COAL

The Owner and Chief Engineer both use "Michel" Screened to heat their homes. The "Chief" has used this coal for two winters, and will cheerfully tell you he saves over fifty dollars per season, also gets the best heating service he has ever had.

THE REASON.—Michel is a smokeless coal, mined in British Columbia in the heart of the Rocky Mountains. Has more heat per pound than Anthracite and will give almost twice the service of cheaper coals. 6% ash—no moisture. All pure Coal. You cannot possibly make clinkers. No gas or danger of explosion. Burns all night and gives out heat all the time. It is a coking coal and lasts twice as long as cheaper non-Coking coal.

PRICE \$15.50 PER TON

Sold Only by CONSUMERS COAL CO., LTD.

Exclusive Distributors for Manitoba.
